## **LUXMI INTRODUCTION**

The word 'LUXMI' (LAKASHMI) is derived from the Sanskrit word "Laksya", meaning 'aim' or 'goal'. LUXMI is the goddess of wealth, prosperity, auspiciousness, and good fortune. She is the goddess of purity, generosity, and the embodiment of beauty, grace and charm. LUXMI coin is the one of the oldest coin found in Anuradhapura period, Sri Lanka. The LUXMI coin can be identified as a special type of coin. It can be described as a unique type of coin that was found in Ancient Sri Lanka. These coins are known as "Lakshmi coin" because of the feminine image on the face and a railed and swastika symbol attached to the reverse. Our idea to choose the name for our coin as LUXMI is to give credit, identity and respect to our ancient currency LUXMI.

## **ABOUT BLOCKCHAIN**

'Blockchain technology has come a long way since the initial vision published by Satoshi Nakamoto in 2008. Big buzz words like "Bitcoin," "Blockchain," and "Cryptocurrency" are everywhere. Companies and governments have started to use Blockchain Technology in earnest and will increasingly do so for the foreseeable future.

Since its initial conception, Blockchain has encompassed both a social promise and new technology. Originally proposed as a solution for Bitcoin's Cryptocurrency record-keeping system, Blockchains are now used to store the records of all types of applications.

Core services we all depend on like the transfer of money, voting, land records, IP rights, and identity all rely on intermediaries. Blockchain software has begun taking the place of these antiquated systems. The software becomes the trusted record-keeping system, and the rules programmed into the software become the intermediaries.

## **BLOCKCHAIN TECHNOLOGY IS A BRILLIANT INNOVATION ON THE INTERNET.**

As the Digital Economy matures, Blockchain is revolutionizing the way we do business and have fun.

TRADITIONALLY, A SERVER STORES ALL TYPES OF DATA IN A CENTRALIZED PLACE, WHICH IS SUBJECT TO MAJOR SECURITY RISKS. THE DEVELOPERS OF BLOCKCHAIN TECHNOLOGY ESTABLISHED A SYSTEM THAT DISPERSES THE DATA STORAGE ACROSS COMPUTERS AROUND THE GLOBE. THE SECURITY OF THIS SYSTEM IS UNPARARALLELED, WHICH IS WHY LUXMI DEVELOPMENT TEAM DECIDED TO REBUILD AND MAKE NEW CURRENCY THAT RUNS TO BLOCKCHAIN NETWORK. THIS WHITE PAPER WILL CONVEY THE VISION FOR LUXMI TOKEN,

## **BINANCE SMART CHAIN (BSC)**

Binance Smart Chain is a blockchain network built for running smart contract-based applications. BSC runs in parallel with Binance's native Binance Chain (BC), which allows users to get the best of both worlds: the high transaction capacity of BC and the smart contract functionality of BSC.

Furthermore, Binance Smart Chain also implements the Ethereum Virtual Machine (EVM), which allows it to run Ethereum-based applications like MetaMask.

The aim of the platform is to enable developers to build decentralized applications (DApps) and help users manage their digital assets cross-chain with low latency and large capacity. Binance Smart Chain has made immense traction in early 2021 so far partly thanks to Ethereum's congestion and gas fee issues, which has caused developers and staking investors to look for other options. The BSC community made the network even more appealing to new users as a cost-effective and stable alternative, by lowering its gas fee.

## LUXMI TOKEN

We envision a world where wealth-building strategies that were once only accessible to affluent individuals become available to everyone, transferring the power over our financial systems back to the people. Our platform is going to create a revolutionary ecosystem to bring more people into digital assets, helping to maintain their privacy, security, power, and autonomy. We strive to create an ecosystem based watch and reward/ Make and reward sound monetary policy and all the foundational strength that comes with a sound digital asset.

# FEATURES

**Community Driven** – LUXMI is decentralized and governed by its vibrant, supportive, and amazing community members. Our team and community volunteers welcome and embrace diverse perspectives to help build LUXMI into one of the best decentralized communities in the crypto world.

**Auto LP Acquisition** – Every trade contributes toward automatically generating liquidity locked inside PancakeSwap LP.

LUXMI Token features a self-sustaining liquidity pool that sucks up tokens from transactions in the form of fees and adds them to LUXMI liquidity pool on PancakeSwap. This adds a solid price floor for the token. It also penalizes selling activities, thereby discouraging whales from dumping the token in the markets. 5% of every transaction contributes toward automatically generating liquidity.

**Token Reflection** – LUXMI Token belongs to that class of token which rewards their investors for just holding them. More you hold them over time the reward amount increases. As Luxmi token grows and attain success with increased transactions so the reward increases for the investors. We believe this mechanism provides investors with an active stake in LUXMI success. Five percent of each transaction is redistributed to token holders For every active user transaction, Five percent LUXMI Rewards are granted to holders' proportional to the amount of tokens currently held. Simply Hold LUXMI token and watch your holdings continuously increase in real time.

**Security** – LUXMI Token is powered by Binance Smart Chain (BSC) and enjoys the best security and safety protocols that crypto technology has to offer.

## OUR PROJECTS

We have several innovative projects we are working on. These projects are designed to set the ball rolling on our goal of creating an improved and a new generation DeFi world. Below are the Some innovative projects Team LUXMI is working on.

### LUXMI NFT

Concept LUXMI NFT is a visionary idea of an online Art platform where absolutely all the NFT will be hosted and controlled by the users of the platform. Proprietary NFT marketplace that is bringing artists and art lovers under one virtual roof. Create, buy and sell NFTs with ease on our user-friendly platform. Interact with members of the NFT community and share your favorite NFTs and ideas.

Buy/Sell NFTs & Collectibles on our marketplace platform. We will launch our unique LUXMI NFT 3D Art models with different features and accessories. We will also have a unique design NFT Series.

### LUXMI DEX ( Decentralized Exchange)

**Decentralized Exchanges (DEX)** are a type of Cryptocurrency exchange which allows for direct peer-to-peer Cryptocurrency transactions to take place online securely and without the need for an intermediary. We are going to Simplify the Decentralized Exchanges So people can use & work on DEX with an ease.

Future versions will offer additional DeFi features such as: BSC BEP token swap, Liquidity Provision and Rewards, Automated Market Making, Live Trading with Stop-limit Orders.

## **LUXMI CRYPTO EDUCATIONAL APPS**

Create a platform that is simple a free resource that provides open-access, high-quality crypto education to the world. People are still untouched and unaware about the cryptocurrency world.
